## ABOUT ME

I'm a 29 years old web developer & Freelancer currently based in Youssoufia and studying at Youcode . I love everything that has to do with Programming, Database, Web design & development and I feel a true devotion for web based application. I work closely with other colleagues involved in projects, such as a remake for our school website. I also work directly with clients.

## WORK EXPERIENCE

### Custom Video Player | JavaScript

JavaScript and some HTML/CSS

**Brief Description :** a project realized in our school to practice what we have learned in JavaScript every group have a different project ours was to create a custom video player using JavaScript.

### Mizuxe website | Bootstrap 4

Html CSS Gulp Sass and Bootstrap 4

**Brief Description :** To enhance my Html, CSS skills I have created this website using technologies that I have learned like Bootstrap 4 and managed my work using a webpack called Gulp also I have worked with Sass a preprocessor for CSS.

### Youcode.ma website | Remake

Bootstrap 4 HTML CSS JavaScript

**Brief Description :** Our school lunched a competition to create a new website and replace the old one so I and my team created this website using our knowledge of HTML, CSS and JavaScript using Bootstrap as a Framework .
